[Jordan Deposit Insurance Corporation](#)

[Kazakhstan Deposit Insurance Fund](#)

[Korea Deposit Insurance Corporation](#)

[Malaysia Deposit Insurance Corporation](#)

[National Deposit Insurance Fund of Hungary](#)

[Nigeria Deposit Insurance Corporation](#)

[Savings Deposit Insurance Fund](#) (Turkey)

Capacity Building Programs

Deposit insurers with capacity building programs are presented here as a resource for other deposit insurers, financial authorities and government officials seeking to develop, strengthen or transition deposit insurance schemes.

Capacity building services available through these programs are delivered and performed on-site in the locale and facilities of the party requesting the services. Additional information is presented for alternatives hosted by providers in-house.

All capacity building programs include some combination of expertise (deposit insurance or failed bank resolutions), services (professional training or expert consultation), priorities (policy-specific or geographical area), and financing requirements.

Requesting Capacity Building Services

Instructions and direct contact information to request capacity building services are presented for each provider in the descriptions of individual programs. The [IADI Secretariat](#) is also available to answer questions and facilitate contacts.

Additional Program Providers Welcome

IADI members and other deposit insurers wishing to add their capacity building programs to this resource site should complete the following survey and return it to the attention of IADISurvey@iadi.org.
