Section 2: Objectives, Mandates & Powers

2.1.1 When and why was the DIS established (please provide details)?

The Korea Deposit Insurance Corporation was established in June 1996. Prior to June 1996, Korea lacked an explicit deposit insurance system for banks. Instead, there existed an implicit government guarantee on bank deposits. As for financial institutions in financial sectors other than the banks, each sector had its own method of depositor protection, usually in the form of a fund. However, financial liberalization and evermore-fierce global marketplace brought increased competition and ensuing aggressive marketing among the financial institutions. Such atmosphere envisaged heightened likelihood of financial institution failures. In light of such dynamic environment, the Depositor Protection Act (DPA) was enacted in December 1995, and the Korea Deposit Insurance Corporation (KDIC) was accordingly established in June 1996 to formally protect depositors of insured financial institutions and to maintain public confidence in the financial system.

2.1.2 What are the stated public policy objectives or mandate for your country's DIS? When was the last time they were reviewed and changed?

The purpose of the DPA is to contribute to protecting depositors and maintaining the stability of the financial system by efficiently operating a deposit insurance system in order to cope with a situation in which an insured financial institution is unable to pay its depositors due to its insolvency or bankruptcy. The DPA was revised in February 2008.

2.1.3 What process was used to determine these objectives in your country?

Research by scholars, the related authorities and field experts and public hearings
