Expertise, Resources and Services

MDIC was established in 2005 and has assembled a core team of specialists. MDIC possesses expertise in both *deposit insurance* and *failed bank resolutions*.

MDIC is well positioned to assist with the design, implementation and strengthening of new or existing deposit insurance systems. MDIC has established particular expertise in corporate governance, enterprise risk management and internal control, development and practice of Islamic deposit insurance, risk assessment and monitoring, differential premium system, and public awareness and communication with depositors. MDIC has also established particular expertise in the development of comprehensive bank intervention and failure resolution policies, practices and procedures, including a ready-to-go payout system with very flexible IT support. MDIC has also acquired seasoned experience in transitioning out of blanket guarantees, having completed that process twice.

MDIC offers *speakers and presenters* for training events hosted by others. MDIC also offers *expert consultation* in advising, reviewing, evaluating, discussing and reporting on policies, processes and procedures with regard to compliance with the Core Principles for Effective Deposit Insurance.

MDIC entertains requests for capacity building services throughout the year. Up to two subject matter experts are available for up to one week at a time per individual mission, subject to availability. Follow-up missions will be considered subject to the same limits. All requests should be submitted at least 3 months in advance and all work is performed in English. The requesting agency is responsible for any required translation services and the safety of MDIC personnel.

Objectives, Priorities and Financing

MDIC shares experience and knowledge with others to learn and contribute to building, advancing and supporting developments in international deposit insurance standards.

MDIC focuses attention on countries and jurisdictions in Asia as a matter of practicality but has established no formal policy-specific or geographical area priorities. MDIC is open to requests from any central bank, supervisor or deposit insurer, government agencies, and international financial institutions, such as the World Bank and IMF.

MDIC requires mission financing from the recipient or third-party sponsor to fund all costs, including travel, accommodations, ground transport, meals, etc.

Requesting Capacity Building Services

Requests for capacity building services should clearly outline the following detail: (1) type of assistance required (training/consultation); (2) areas of expertise sought (per earlier description); (3) mission objectives; (4) target audience and current level of understanding; (5) location, timing and duration of the mission; (6) mission financing; (7) translation services; and (8) contact person.

Requests may be sent to the following principal contact.

Mr. Kevin CHEW

Alternatives Hosted by the Provider

MDIC hosts foreign delegations at all levels – middle or senior management, board members, etc. Programs and materials are tailored for the requests and technical levels of the visiting delegations. MDIC has hosted many study visits in the past from both IADI members and central banks alike.

MDIC hosts special events from time to time, subject to availability of resources. In the past, this has included a number of training courses, workshops and seminars in collaboration with IADI members and others, such as the IMF and the Southeast Asian Central Banks (SEACEN) Research and Training Center.
