About Us

The NDIC Academy, Centre for Deposit Insurance System (DIS) Training & Education, is a regional learning center established for building capacity in the unique field of DIS and Financial Safety-net. Our courses are designed and carried out in collaboration with local and international Regulatory and Supervisory Agencies such as the International Training Institute (ITI) of the Central Bank of Nigeria (CBN), the Financial Institutions Training Centre (FITC), Nigeria, the Chartered Institute of Bankers of Nigeria (CIBN), the Corporate University of the Federal Deposit Insurance Corporation (FDIC), USA, the Office of Technical Assistance (OTA) of the United States Federal Reserve System, the International Association of Deposit Insurers (IADI), etc.

The Academy was established by the NDIC in 2013 to serve as a center of excellence on DIS competencies for agencies in IADI Africa sub-region in fulfillment of its core mandates as Risk Minimizer of deposit guarantee, bank supervision, bank distress resolution and bank liquidation and in furtherance of its public policy objectives of depositors’ protection, financial system stability and enhancement of public confidence.
Welcome to NDIC Academy, an exciting learning institution on Deposit Insurance System with a vibrant history and a promising future. The Academy possesses wealth of experienced faculty with passion and commitment to excellence. In its 28 years of existence, the Corporation has developed a repertoire of expertise by exposing its staff to capacity development activities globally. It is now strongly positioned to avail sister institutions skills they need to pursue and achieve their mandates.

It is my expectation that the Academy shall remain a center of excellence and a model DIS training institute in Africa by addressing the skill needs of sister agencies in the IADI Africa Sub-region and foster individual and organizational effectiveness towards achieving set mandate.

Thank you.

Umaru Ibrahim, FCIB, mni
MD/CEO, Nigeria Deposit Insurance Corporation (NDIC)
The ACADEMY Courses are specifically designed to provide participants with an in-depth knowledge of the unique subject of Deposit Insurance System and associated issues through an interactive and blended learning processes.

The curricula are grouped into various 'SCHOOLS'. These programmes are delivered by internal and external subject-matter experts and in collaboration with our local and international partners.
