

Dear IADI members, participants and secretariat,

I am writing to introduce myself on my appointment to the Deposit Insurance Corporation of Japan. It is my great pleasure to be appointed to the DICJ as an Executive Advisor to the Governor & Executive Director, Research and International Affairs Department on this July.

Until then, I was the Director (head of the division) of Financial System Stabilization Division, Minister's Secretariat of the Ministry of Finance of Japan, that is in charge of DICJ issues in the MoF of Japan.

Also, since I joined the Ministry of Finance of Japan in 1996, I had some international work experience related to IOSCO, IFRS, EBRD and JBIC and JICA etc. in the MoF of Japan and in Financial Supervisory Agency of Japan (JFSA). Also, I have experienced financial supervision in JFSA for some years and supervising foreign securities companies in Japan, too.

I am very excited to work with you to better achieve IADI's mission and objectives to strengthen deposit insurance systems worldwide and to contribute to the stability of financial system, supporting our Designated Representative for IADI and the Governor of the DICJ, Hidenori Mitsui. Please feel free to contact me if necessary and looking forward to meeting you in IADI meetings soon.

Best regards,

Kotaro Tanaka (Mr.)

Executive Advisor to the Governor & Executive Director, Research and International Affairs
Department Deposit Insurance Corporation of Japan
